## To the Night

*Dan Hardison*

Evening has passed  
and night is upon us –  
sleep is near.

A time to put the day behind us –  
the stress, the worries,  
the problems, the fears.

A time to welcome sweet slumber.  
A time of peace, of dreams.

So to the night we go  
and through the night we journey  
until the morning comes  
and brings a new beginning.
